An Employee Owned Company

# REUSABLE, RELIABLE, RESILIENT

THE RUGGED 55 GALLON  
NESTABLE PLASTIC DRUM  
MAXIMIZES YOUR ROI AND  
MINIMIZES YOUR STORAGE

## Space-Saving Nestability

Pre-fill drum  
staging space  
is reduced by  
almost

**67%**

**6** Nested N55  
drums take up  
**24** cu ft.  
vs Steel drums  
72 cu ft.

## Calculate Your ROI

(Steel drum cost \$ \_\_\_\_\_) ÷ (steel drum life in years) \_\_\_\_\_ = cost/year \$ \_\_\_\_\_

(N55 drum cost \$ \_\_\_\_\_) ÷ (steel drum life in years) \_\_\_\_\_ x 4 = cost/year \$ \_\_\_\_\_

**Our Customers tell us the rugged N55 last 4 or more times  
longer than steel**

# N55 DRUM RESHAPING SHIPPING AND STORAGE

## INVEST IN YOUR PROCESS, ADD VALUE TO YOUR PRODUCT

Our focus is getting the best storage drums to your production process. With a virtually unlimited product life, your savings begin with your first N55 Drum purchase.

### PRODUCT BENEFITS

#### Reusable

- Body sidewall contains pigment and UV inhibitors to offer maximum protection from the sun
- A long life cycle which means the N55 will outlast and endure many more trips than a steel drum
- The new natural HDPE interior makes cleaning and reuse even easier as the interior can be inspected

#### Reliable

- Molded-in strapping channel allows proper restraint while the drum is on the pallet and during shipments
- Consistent container and lid dimensions eliminates costly and laborious "sorting" of steel drums
- Designed to be easily handled with conventional drum handling equipment
- Each Coexcell drum has its own unique traceable identification label

#### Resilient

- Lighter weight – about half as heavy as steel drums – and more protective
- Conical shape allows for easier frozen product release

#### DRUM DETAILS

##### N55 specifications for the FDA compliant HDPE 55 Drum

##### Body Height

37.5" (95.3cm)

##### Top Diameter

23.2" (58.9cm)

##### De-Nesting Height

7.4" (19cm)

##### Total Weight (including lid and lock band)

20 lbs (± .5lbs) / (9.1 kg (± .23 kg))

##### Max Capacity

55 gal (208 liters)

##### Color

Black (Other colors available upon special request)

##### Broad Temperature

##### Operating Range

-40°F to 140°F (-40°C to 60°C)

736 drums fit on a standard 53 foot railer compared to 200 steel drums or non-nestable drums

#### PALLET DETAILS

##### Dimensions

48" x 48" (122cm x 122cm)

##### Pallet Height

10.7" (27cm)

##### Pallet Weight

30lbs (13.6kg)

##### Nesting Height Per Pallet

Approx. +2" (+ 5cm)

##### Forklift Openings

6.28" x 4.70" (16cm x 12cm)

##### Center Dividing Wall

17.72" (45cm)

##### Stacked Drum and Pallet Height

43.75" (111cm)

##### Color

Black (Other colors available upon special request)

Approximately 1,248 empty, nested pallets can fill a standard 53' trailer

HDPE pallet is more durable and sanitary and holds drums better than wood pallets

Bottom of pallet molded to nest with top of four N55 drums for effective stacking

#### DRUM LID & LOCK BAND DETAILS

##### Outside Diameter

23.55" (59.8 cm)

##### Inside (Lip) Diameter

21.8" (55.3 cm)

All plastic (HDPE) lid and lock band
